

Which scientific topics are accepted at the ECNP Congress?

ECNP's mission is to advance the science of the brain, promote better treatment and enhance brain health. ECNP accepts and encourages the submission of abstracts by psychiatrists, neuroscientists, neurologists, psychologists and other professionals, from across the world, who are keen on discussing the latest developments in the science and treatment of brain disorders. ECNP accepts abstracts from a broad range of topics in applied neuroscience. A list of the most common topics, including few notable examples and keywords, is here.
