

The Changing Landscape^{of} ADHD

Join the
Takeda-sponsored
industry satellite
symposium (ISS05) on
**11th October
2026!**

As the ADHD landscape continues to evolve, it is important to deepen our knowledge of **ADHD in adults** – particularly in **women** – and its relationship to possible comorbid conditions such as **depression, anxiety, and substance use disorders** to further develop clinical strategies to improve patient outcomes.
