

Aligning treatment goals and patient preferences for better long-term outcomes in schizophrenia

Date: Saturday 10th October 2026
Time: 13:20–14:40 (CEST)
Venue: Room 13, ICM – International Congress Center Messe München, Munich, Germany

Industry session financially supported by H. Lundbeck A/S during the 39th ECNP Congress.

Agenda		
13:20–13:25	Chair’s introduction	Christoph Correll, Germany
13:25–13:43	Redefining treatment goals: how can we use longer-acting injectable antipsychotics in the path to functional recovery?	Philip Gorwood, France
13:43–14:01	Shaping care together: what do our patients feel about their long-term treatment options?	Sofia Pappa, UK
14:01–14:19	Advancing clinical practice: what does real-world evidence tell us about outcomes when transitioning patients to longer-acting injectable antipsychotics?	Jesús Pérez, Spain
14:19–14:37	Q&A, moderated by Chair	All faculty
14:37–14:40	Summary and close	Christoph Correll, Germany

This meeting has been organised and funded by H. Lundbeck A/S.
This meeting is intended for healthcare professionals only.
