Treatment paradigms and importance of outcome dimensions in schizophrenia – patient and physician outlooks

Date: Sunday 18th September 2016
Time: 17:15–19:00
Venue: Hall F2

Moderator and Chairman: Jim van Os (The Netherlands)
Faculty: Peter Haddad (UK), Pierre-Michel Llorca (France), Wolfgang Fleischhacker (Austria), Ofer Agid (Canada)

Satellite symposium on the occasion of the 29th ECNP Congress, with educational financial support provided by Otsuka Pharmaceutical Europe Ltd. and H. Lundbeck A/S
Treatment paradigms and importance of outcome dimensions in schizophrenia – patient and physician outlooks

AGENDA

17:15–17:25 Welcome; introduction to symposium format; set scene for Debate 1
Jim van Os
(The Netherlands)

Debate 1: Managing schizophrenia: short-term benefit vs. long-term success

17:25–17:40 Short-term treatment outcome should be prioritised in schizophrenia
Peter Haddad
(UK)

17:40–17:55 Long-term treatment outcome should be prioritised in schizophrenia
Pierre-Michel Llorca
(France)

17:55–18:10 Summary and consensus
Jim van Os
(The Netherlands)

Debate 2: Managing schizophrenia: symptom control vs. improved functioning

18:10–18:15 Set scene for Debate 2
Jim van Os
(The Netherlands)

18:15–18:30 Symptomatic control should be prioritised in the treatment of schizophrenia
Wolfgang Fleischhacker
(Austria)

18:30–18:45 Patient functioning and health-related quality of life (HRQoL) should be prioritised in the treatment of schizophrenia
Ofer Agid
(Canada)

18:45–19:00 Summary and consensus; closure
Jim van Os
(The Netherlands)
