

ECNP Internship 2020

22/02/2020-29/02/2020

Host:

Prof. Dr. Gil Zalsman – Geha Mental Health Center, Child and Adolescent Department, Tel-Aviv University, Petah Tikva, Israel

Intern:

Dr. Eszter Varga – University of Pécs, Department of Pediatrics, Pécs, Hungary

I was honoured with the chance to spend eight days as an intern at the Geha Mental Health Center, Child and Adolescent Department, adolescent day care of the child Psychiatry Division, under the supervision of Prof. Dr. Gil Zalsman and his outstanding team.

During my intern I spend my time in the adolescent day care. I attended meetings with Prof. Zalsman and his team. I also had a lot of opportunities to meet and talk to children and adolescents suffering from various child psychiatric disorders. The members of the staff was very helpful and kind and willing to share a lot of knowledge with me. Gaining this intern gives me great privilege and great contribution to my career. The biggest advantage of this intern is becoming familiar with clinical works of an other country.

I would also like to thank all the members of Geha for the warm and friendly welcome and for the learning opportunities they provided.
