

ECNP Supported talk Serbia

Report

ECNP Supported talk was held on 19th February 2016 (12AM), in Clinic for Mental Disorders „Dr Laza Lazarevic“, Visegradska 26, Belgrade, Serbia.

Dr Gorica Djokic ECNP Ambassador for Serbia held a brief introduction on ECNP, ECNP activities, schools and other ECNP initiatives which are directed to Junior Scientists.

Prof Joseph Zohar had a talk „How Neuroscience based Nomenclature (NbN) can help in rational prescribing?“, with lot of practical informations on NbN, and how can NbN help in every day practice.

68 mostly young scientists attended lecture, and after it there were some questions answered by Prof Zohar. Questions were related to NbN for child and adolescent population, and why NbN didn't include dosage?

Prof Zohar had a lot of personal contacts with psychiatrists from Clinic for Mental Disorders „Dr Laza Lazarevic“
